RE: 98-N1230 96P-0418 97P-0197

Please enter my comments regarding the above:

I object to forced molting of hens and request that the petition to ban forced molting be granted immediately.

Forced molting is a primary cause of infectious diseases in hens and eggs which is very dangerous to consumers.

Placing bacteria warnings on cartons is NOT sufficient to prevent consumer injury and cruelty to the hens.
